

Activities for Youth and Young Adults

Building real-life skills in real-life environments

Led by autism experts, classes build confidence and self-esteem while participants learn how to make friends, interact with a group, practice socializing, and have fun – all while educators encourage participants to be themselves. Classes offer low-stress, accepting environments in community venues that promote learning and growth while celebrating neurodiversity.

AuSM offers programming that is conducive to youth and adults who fall within the wide range of the autism spectrum. Social skills classes are staffed at a 1:4 staff to participant ratio. If an individual is able to participate safely in a program but requires individual assistance with communication, behavior support, or daily living activities, PCA attendance can be approved so the participant may have the most inclusive experience possible. Call 651.647.1083 ext. 22 or e-mail education@ausm.org for more information. AuSM is committed to making your class experience positive and rewarding.
