

Research opportunity!

We need your help developing a new self-report questionnaire about managing emotions for teens and adults.

How can you participate?

We are seeking volunteers – autistic individuals age 11+ and their parents/caregivers – to complete online surveys. Compensation will be provided.

For more info, emotionresearch@upmc.edu or 412-260-6593

This research study is being conducted by the University of Pittsburgh and funded by contracts from the National Institutes of Health.
