

Create Inclusion

True inclusion requires engagement. Real inclusion means that individuals with disabilities participate to the greatest extent possible and have a voice to share thoughts, ideas, questions, and experiences. AuSM is dedicated to helping community organizations create meaningful opportunities for autistic individuals. We offer a wide range of services, including general consulting, sensory and accessibility inventories, customized staff trainings, visual supports, social narrative preparation, and creating sensory kits and tools.

Why Autism Training?

Your sibling. Your child. Your student. Your neighbor. Your customer. Your client. With a prevalence rate of 1 in 34 in Minnesota, Autism Spectrum Disorder (ASD) is the fastest growing disability in our state. As a business owner, organization member, educator, or direct support professional, you encounter autistic individuals every day. By learning more about the diversity of the autism spectrum, you're taking proactive steps toward support, acceptance, and inclusion.

Training & Consulting

Consultation Services

Offering inclusive spaces – whether through events, employment and beyond – is more important than ever. As a business owner, organization member, educator, or direct support professional, you encounter individuals with autism every day. By learning more about the diversity of the autism spectrum, you're taking proactive steps toward support, acceptance, and inclusion.

AuSM offers a range of consulting services through our partnerships. Our services include, but are not limited to:

- Customized staff trainings
- Sensory-friendly inventory of spaces
- Customized social narratives and visual tools
- Sensory-friendly guide listings
- Event listing on AuSM's Community Calendar
- Sensory kits and tools
- Guidance for inclusive spaces and resources

Sensory Kits

Autistic individuals often experience sensory dysregulation, which can be in the form of *hyper* (too much input) or *hypo* (not enough input) sensitivities. One easy way to support sensory needs is with tools that can help regulate sensory systems.

AuSM offers customized kits and tools that fit any budgets. Starting at \$75, our kits include a wide variety of sensory tools such as headphones, white boards, sensory stix, fidgets, and a carrying bin.

Request a kit at education@ausm.org. Shipping fees may apply.

Customized Trainings

AuSM's team of education specialist provide you with customized trainings that offer strategies to help make your environment positive, inclusive and supportive for neurodiverse individuals. We offer customized trainings and presentations available virtually or at the location that best suits your needs.

We work with any budget and offer a 15% discount to nonprofit organizations! We also offer standard trainings throughout the year, including AuSM Skillsshops, ASD Direct Support Certification, and Understanding Autism.

Visit www.ausm.org for more information.
