

Hello all,

My name is Chukwuma Udezeh and I am a neurodiverse Ph.D. student conducting a research study at the University of Minnesota, investigating how tactile defensive individuals describe their clothing requirements and their experienced clothing barriers. If you also identify as neurodiverse and have experienced hypersensitivity and/or hyposensitivity to clothing or touch, please contact me expressing your interest in potentially participating in this one-time survey. Survey participants will also receive a \$10 Starbucks digital gift card.

Participation will also require that you live in the United States, are at least 18 years old, and are able to respond to survey questions in English.

Thank you for your time.
