# It is my summer vacation!

# This summer, I am going up to Camp Hand in Hand.

I might have to drive a long time to get there.

I will stay at Camp Hand in Hand for 4 nights and 5 days.  
Then I will go home.

At camp, there will be someone who is my buddy throughout the week. They are there to help me. They are called a counselor.

At camp, there will be a schedule of events.

We will eat breakfast, lunch, and dinner outside at tables.

# The schedule will have: morning rotations, swimming, and evening activities.

Morning rotations will include activities like: archery, cooking, canoeing, etc.

I will get to go horseback riding during a morning rotation.

# When my morning rotation is done, I will have lunch.

After lunch, I will have relaxation time in my bunk.

After relaxation, I get to go swimming.

Swimming time will include a chance to go swim, hang out on the beach, go on a pontoon, go tubing, or go fishing.

After swimming, I will shower and then have dinner.

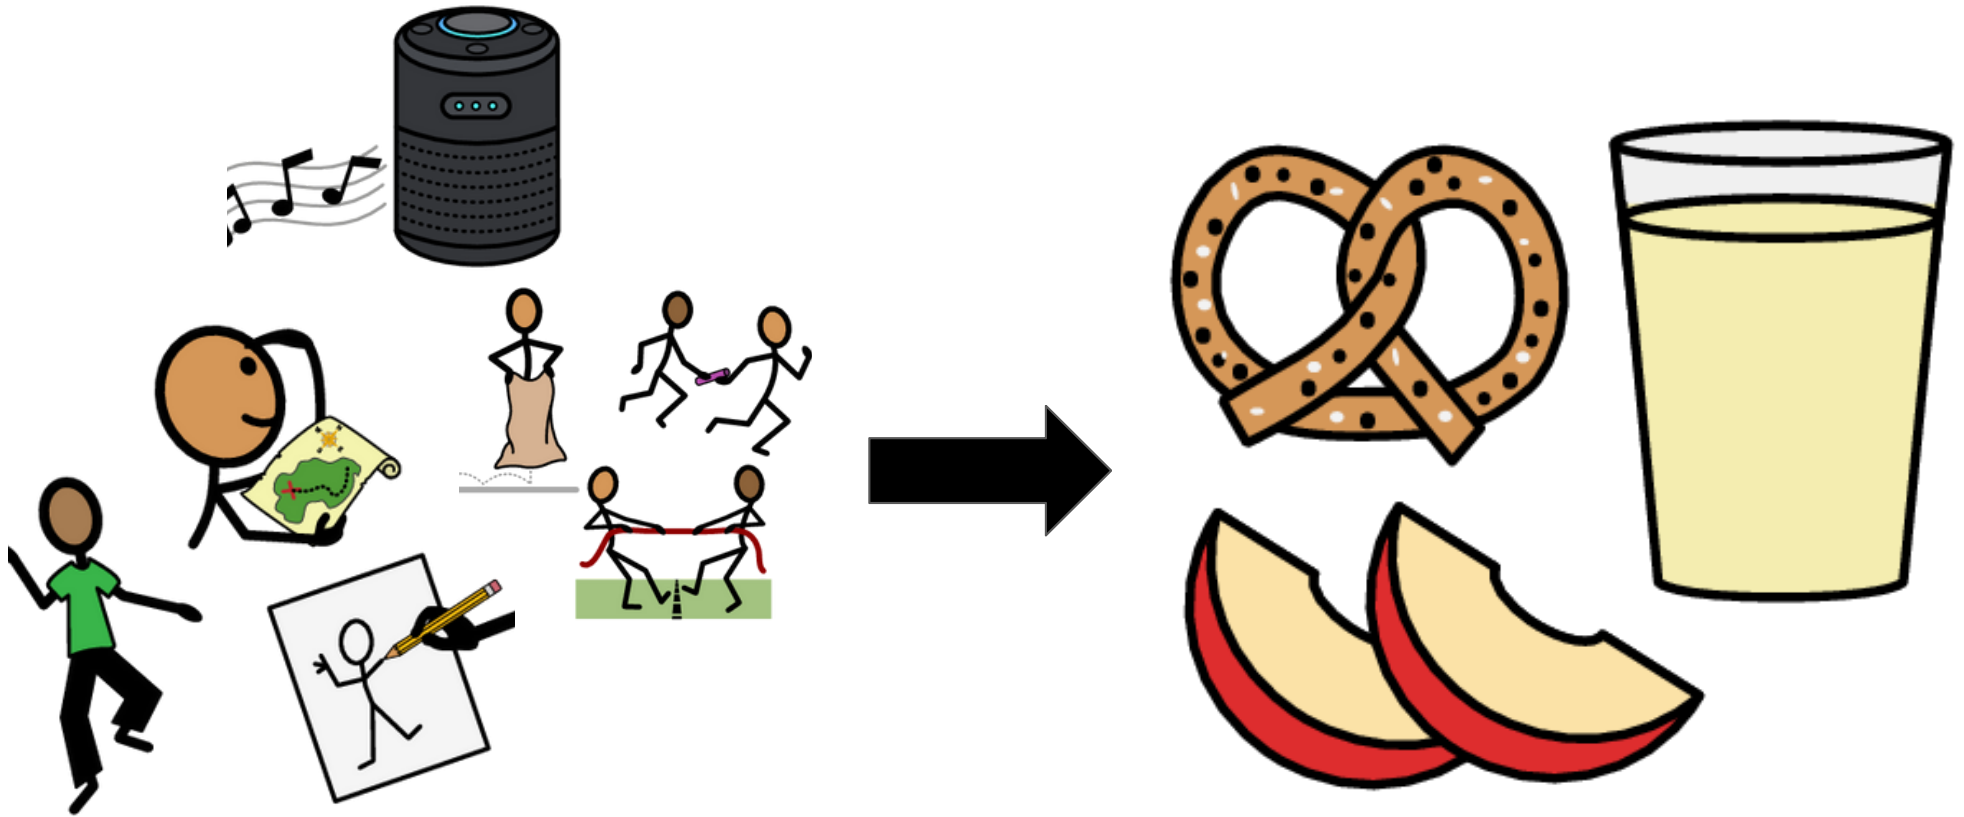

I can do recreation when I am done eating dinner. The options might be bikes, gaga ball, or basketball.

Evening activities will be after recreation and have a fun theme with different games and activities.

# When evening activities are over, I will get to have a snack.

After snack, I will start getting ready for bed.

I will sleep in a cabin with my group.

# I might sleep in a bunk bed and have a roommate.

If I need help, there's a staff member sleeping in the cabin as well.
