

Are you a parent of a child with Autism Spectrum Disorder (ASD) aged between 3-5 years who faces communication challenges?

This is a chance for both you and your child to be part of an online intervention project at no financial expense! The intervention aims to train parents on using strategies to improve communication skills for their children with ASD within the home environment!

If you are interested in learning more, please email Aeshah Alturki at aaltu001@odu.edu

Completion Reward

A \$100 gift card will be given to parents upon successfully completing the training!
