

ABA Therapy and Its Lasting Impact: Personal Accounts from Autistic Adults

IRB# (HSR 24-25-423)

What is the purpose of this study?

We want to learn about your personal experiences receiving ABA therapy in childhood and how you think ABA therapy has affected your life.

Eligibility

- Identify as an autistic individual
- Be over the age of 18
- Previously participated in Applied Behaviors Analysis (ABA) for at least a year

Why Participate?

Your story matters! By taking part in this study, you'll be contributing to important research that may influence how autism therapy is understood and improved.

What will I be asked to do?

- Complete a demographics survey (~5-10 minutes).
- Participate in an interview (via Zoom audio) (~45 minutes).
- Responses will remain confidential.
