

We Need Your Help!

To Better Understand Experiences of Loneliness in Autistic Young Adults

The **Social Experiences and Loneliness in Autistic Young Adults (SELA)** project is looking to understand how loneliness can change during major life changes for young autistic adults. This study is led by a team of autistic and non-autistic scientists & community members.

Who can join?

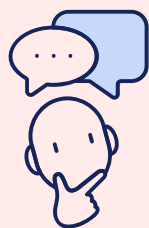

- Autistic young adults ages 18-30 (with professional diagnosis or self-diagnosis)
- Currently live in the U.S.
- Can understand English
- Expecting or likely to have a major life change within the next 6 months such as:
 - Starting or finishing school
 - Starting or ending a new job
 - Changes in services you receive
 - And other personal life changes
- **We value all forms and types of communication equally!**

What does participation involve?

You will get paid for every survey you finish (up to 5 total).

You may also be invited to participate in a one-on-one interview and be paid for completing the interview.
