RESEARCH PARTICIPANTS NEEDED
Parents of Children with Autism

Share your experiences with behavioral interventions!

Researchers at UC Santa Barbara are conducting an anonymous online survey to explore parent and caregiver perspectives on the goals, procedures, and outcomes of behavioral interventions (like ABA or naturalistic interventions) for children with autism.

Your voice can help shape better, family-centered support systems!

Our Study

Who Can Participate?

•Parents or legal guardians (18+ years old).
•Caregivers of a child with autism aged 6 to 12.
•Your child has received or is currently receiving a behavioral intervention for at least 6 months within the past 5 years.
.

What will I do?

Complete a 15–20 minute anonymous online survey about your experiences and attitudes toward your child's intervention

Is there compensation?

Yes! Participants who complete the survey will have the option to enter a drawing to win a $20 gift card. (Drawing entry is kept completely separate from your survey answers).

How to Join?
